### Talent, Passion and Vision a la Parisienne

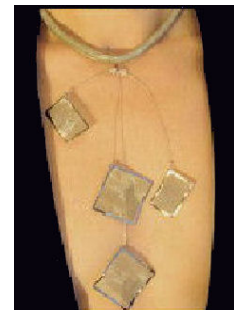

It is our pleasure to be able to present the fine products of ONAYA of Paris in our boutique. In a world driven by assembly-line production, these extraordinary artisans invest their vision, talent and passion to create unique collections of jewelry.

In their atelier – studio – in Paris, Nathalie Petraszko and Laurent Ayats assemble an entire palette of ideas, colors, metals, and geometric shapes to give birth to unique creations. It's easy to imagine them allowing the design to emerge with the subtle mix of metals and materials or the bold introduction of vibrant color.

They search for a new balance of forms in their jewelry with an original and surprising combination that suggests flexibility and sensuality. In their Gamme Grillia Collection, they form a fine metal mesh, delicately wrinkled to drape like fabric. In another of their collections, Nathalie and Laurent arrange sinuous chains or cascading circles softly joined together in symmetrical or asymmetrical geometries.

Color, a light transparency, angles – the eye, the soul of the artist – merge in each piece of jewelry made entirely by hand in their Parisian atelier and plated with gold or silver and treated with rhodium to prevent tarnishing.

A special welcome to Nathalie and Laurent. We currently offer two of their lovely Gamme Grillia Collection and will be offering other colorful collections in the near future. Please let us know your special requests. [Special Product Request](#)
